EDUCATION

- **University of California, Berkeley** Berkeley, CA
B.A. in Computer Science and Mathematics *Aug 2022 – Present*
Minor in Data Science
 - GPA: 3.85
 - Member of Upsilon Pi Epsilon Honor Society
 - Dean's List, Honors to Date

TEACHING EXPERIENCE

- **River City High School** West Sacramento, CA
Teaching Assistant *Aug 2021 – May 2022*
 - Worked as a student teaching assistant for school's AP Calculus course.
 - Taught some classes, presenting key concepts and walking through examples to deepen understanding.
 - Helped design assignments such as in-class work, homework, and exam problems to reinforce core ideas.
 - Graded assignments from students and offered clear explanations on areas to improve upon.
- **River City High School** West Sacramento, CA
After-school Tutor *Aug 2019 – May 2022*
 - Volunteer tutor for mathematics, ranging from Algebra I to AP Calculus BC and AP Statistics.
 - Clearly explained core concepts to students and provided help on assignments.
- **Self-Employed** West Sacramento, CA
Calculus Tutor *June 2025 – Present*
 - Private tutor for Calculus I and II.
 - Created lessons tailored to individual students' needs.
 - Explained and reinforced key concepts through examples and practice problems for students.

PROJECTS

- **Audio Analyzer and Visualizer** | Java, Processing
 - Displays different representations of audio, including waveform and polar graphs, alongside a responsive visualizer.
 - Implemented (smoothed) DFT and FFT to extract frequency information and create audio-responsive visuals.
 - Implemented beat detection by comparing the audio's level to previous in stack.
- **Spam Classifier** | Python, Matplotlib, NumPy, Pandas, RegEx, scikit-learn, Seaborn
 - Created a spam email filter using a Logistic Regression model. Achieved an accuracy of 99.2% on given test data.
 - Cleaned and visualized data using Pandas, RegEx, Matplotlib, and Seaborn.
 - Fine-tuned hyperparameters by cross-validation with GridSearchCV.

RELEVANT COURSEWORK

- **Computer Science:** Data Structures, Discrete Mathematics, Efficient Algorithms and Intractable Problems, Introduction to Artificial Intelligence, Introduction to Machine Learning, Optimization Models in Engineering
- **Mathematics:** Introduction to Analysis, Introduction to Complex Analysis, Abstract Algebra, Abstract Linear Algebra, Numerical Analysis, Programming for Mathematical Applications
- **Data Science:** Principles and Techniques of Data Science, Probability for Data Science, Introduction to Ecological Data Analysis

SKILLS

- **Programming Languages:** C, Golang, Java, MATLAB, Python, R, RISC-V, Scheme, Snap, SQL
- **Frameworks/Libraries:** Matplotlib, Numpy, Pandas, Plotly, PyTorch, scikit-learn, Seaborn, TensorFlow
